

Crave InfoTech Newsletter

April 2017 Volume 1 , Issue 1

SUCCESS STORIES

Crave InfoTech focuses on understanding business needs for customers and provide them with a customized solution which is easy to use and cost effective. We deliver end-to-end solutions to industries such as Healthcare, Retail, Wholesale and Distribution and Transportation.

Crave InfoTech has Successfully implemented IHMS along with SAP Business One, helping Pandya Memorial Hospital in Mombasa, Kenya run their administration, Patient Care and office management efficiently with one integrated system. This project helped Pandya Memorial hospital achieve their digitalization objective and revenue management.

For Anandwan Leprosy Hospital, Crave InfoTech has implemented Healthcare Solution along with SAP Business One and specialty module related to Leprosy. Through this solution the hospital can effectively manage various health camps around the year.

Crave InfoTech successfully implemented the Management Dashboard Mobile Solution for Adani power and Adani Green Energy. The solution is helping top management to see the critical parameters on the go.

"This is awesome. I never thought I could see what's going on at the Power Plants when I am miles away from the location. Team has done a great job"
- Adani Power CIO

At Crave InfoTech, we strive to work with you to maximize efficiency and security that supports productivity, as defined by your business goals. With our services we bring to you the promise of Quality, Economy, Consistency and Reliability.
