

# Streamline Warehouse Management Processes using cWarehouse

## Situation

- Most processes in the warehouse are not being tracked, making the measurement of efficiency difficult. Paper based delivery system is time consuming and requires constant maintenance. This results in increased turn around time and higher overheads.

## Challenges

- Manually managing the inventory and delivery sequence
- Status of the jobs and the inventory is updated in the central system only after the actual work is completed, resulting into delayed invoicing, stock mismatch, and lack of transparency
- No tracking of field workforce and their work in real time

## Solution Innovation

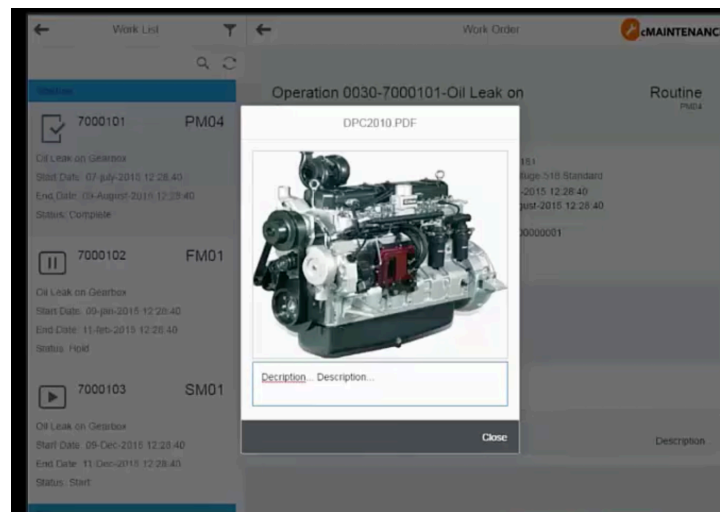

- Application is fully integrated with SAP Cloud Platform, ESS, and SAP B1 with label printing capability.
- cWarehouse offers a novel solution with features like Warehouse bin creation, Bin to Bin transfer, Transfer Order Confirmation, Bin level cycle count, Stock check report at bin level
- Inventory processes: Goods receipt and reversal, Goods Issue, Storage location transfer posting, Plant transfer posting, Stock check, Physical inventory, Goods issue to scrap
- Takes time consuming manual processes and makes them a convenient app for your phone.
- Significantly decrease paperwork.

## Users

- Warehouse Manager
- Warehouse Staff

## Value Drivers

- A disruptive app, pre-packaged to expedite the implementation time, ROI realization, and reduction in TCO up to 80%.
- Completely scalable technology that grows with the business.
- 100% paperless processes.
- 35% reduction in Warehouse Operating costs.
- 15% labor cost per unit handled.
- Decrease overhead through Lean processes
- Manage Warehouse activities with less stress in less time
- In app barcode scanner and signature capture capabilities
- Fully configurable UI from the back-end
- Multi-lingual capabilities
- Fully responsive with iOS, Android, Tablet, etc. out of the box

## Industry/LoB

- All industries using SAP Materials Management (MM) and Warehouse Management (WM)

## GTM Focus

- Americas
- APJ and GC
- EMEA
- MEE

## Solution Environment

- SAP Cloud Platform (SAP CP)
- NetWeaver Gateway
- SAP ECC 6.0 and Above
- SAP Business One 9.1 and above
