

cApproval – One app with multiple approvals

Multiple Business Approvals On-the-Go

Situation

- Business approvals done manually or through multiple systems/applications is time consuming, resulting in unnecessary delay in workflow.

Challenges

- Multiple system/applications to access business approvals
- Delayed approvals causing inefficiencies in business processes
- No access to approvals on-the-go

Solution Innovation

- 20+ business approvals in one novel mobile application
- Fully integrated with SAP Cloud Platform
- Tight integration with several SAP and non-SAP platforms such as SuccessFactor, Concur, Ariba, Office365, and SharePoint to help approvals sync with system automatically
- Handles multiple approval levels within one app
- Standard approval flow allows users to Approve, Reject, Forward
- Managers are receiving approvals far more quickly, significantly increasing speed of completion for all projects
